Thousands of federal public  
service workers are being branded  
*affected* and losing their jobs.

We are **ALL** affected by these cuts  
because we rely on the services  
they provide and because  
these job cuts are bad for our  
communities and our economy.

It's time to stand up together, say  
no to the cuts, and tell us how you  
are affected.

WE ARE

AFFECTED
